INSTRUCTIONS FOR CHECKING PREDATOR TRAP LINE G-F-D

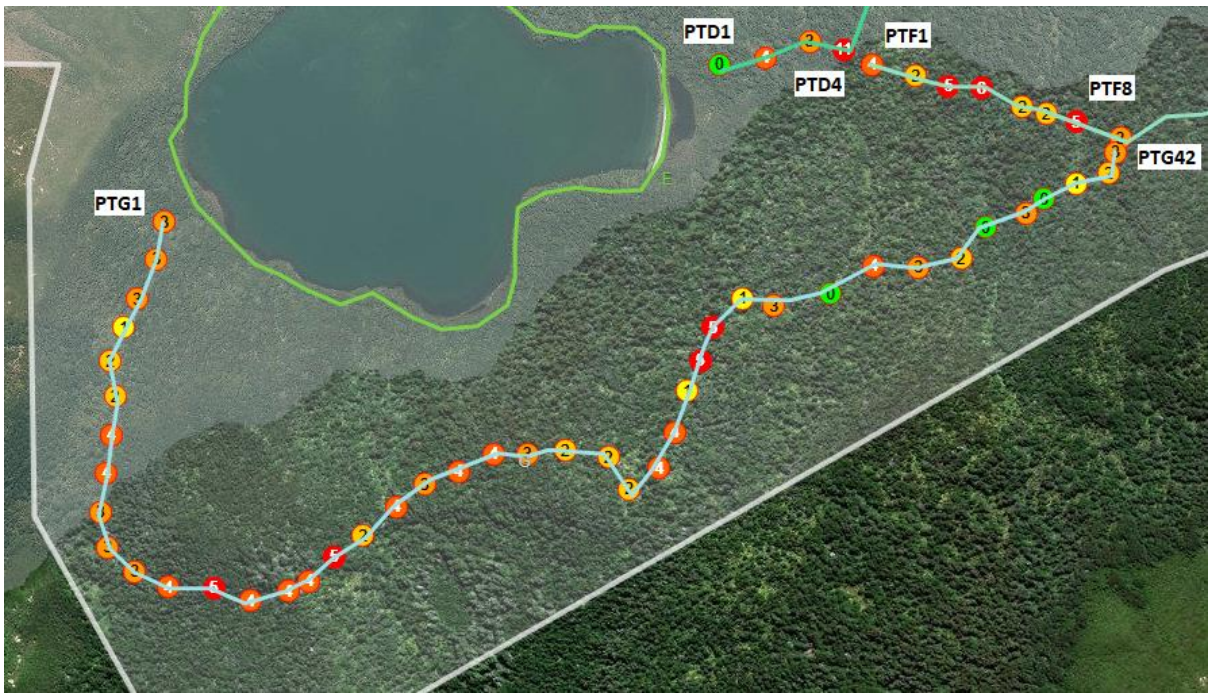
This line checks 53 traps and takes approx. 5 hours (PTG 1– 42) then (PTF 8-1), and (PTD 4-1), from the Lake Rotopounamu carpark.

Access is via the main Rotopounamu track.

Go straight ahead (south) at the T intersection by the sign and continue along the south side of the Rotopounamu Track, walk past trap PT 46 and before you reach PT 45 you should see a pink triangle marking G line. Look for pink marked plastic triangles on the right side of the Rotopounamu track.

The first trap PTG1 is a wee way then follow pink triangles to PTG 32. There is a marker on a tree just before PTG32 indicating to go slightly right. From PTG 32 there is a series of intersects with the bait lines marked in orange. Follow orange to PTG 33.

From PTG 33 follow orange markers up hill to a bait station. At this point vear left and follow pink markers to PTG 34. 20m after PTG 34 vear right and follow orange markers through to PTG 35 and 36.

After PTG 36 vear right and follow orange markers to PTG 37. Halfway between PTG 37 and 38 you follow orange/pink markers for 20 meters then vear left and follow pink only markers to PTG 38. From PTG 38 go right and follow orange markers to PTG 42. From PTG 42 follow pink markers to PTF 8.


Follow orange markers for the remaining F (8 to 1) and D (4 to 1) line traps.
Exit to the lake Rotopounamu Track. Turn right and follow the main track back to the carpark.
